

## COURSE PLANNING FOR FAMILIES

Welcome to Mt Doug!  
Grade 9 is a preparatory year for the graduation program. Students have 5 required courses, and 3 elective choices.

## REQUIRED COURSES

- **English 9**
- **Socials 9**
- **Mathematics 9**
- **Science 9**
- **PE 9**

Students have many elective courses to consider. We strongly encourage students to try different areas of interest.

A second language at the grade 11 level is required for direct entrance to certain universities (e.g. UBC and SFU). While that is a long time away, if students want to leave the door open for direct entrance to one of those universities, they should consider a second language at the grade 9 level. If students are interested in Band, they should be taking it at each grade level.

Course descriptions can be found on our school webpage [here](#).
